

# SM-2

## HIGH Nichia UV LED FLASH LIGHT

for UV fluorescence and NDT Inspection

Rechargeable battery operated high intensity  
UV search light for small area illumination

### Product Features

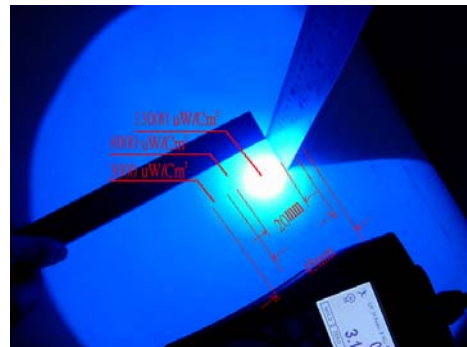

- High output UV 365nm. ( Approx.13000 uw/cm2 at distance 15" )
- Rechargeable battery – 18650 lithium-iron.
- Compact, lightweight and durable.
- Instant UV output.
- Waterproof.
- Wrist strap.

### Technical Data

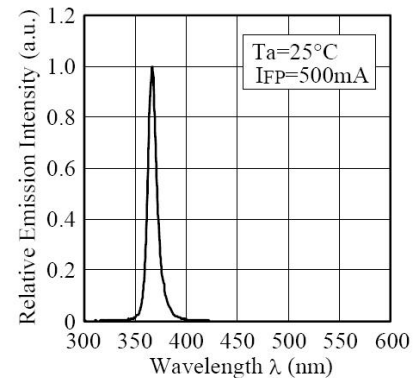

<b>UV source</b>	Nichia chip type uv led
<b>UV source lifetime</b>	10,000 hours (estimated)
<b>Warm up</b>	Instant
<b>Wavelength range</b>	365nm peak
<b>Reflector material</b>	Aluminium cup
<b>Construction material (body)</b>	Aluminium
<b>Power supply</b>	2X18650 Li-Ion Battery
<b>Hot re-strike</b>	Yes
<b>Battery life</b>	Approximately 3 hour
<b>Weight including battery</b>	170g
<b>Size</b>	160 x 45mm
<b>Rating</b>	IP64

### Accessories

1. Spare battery
2. Battery Charger
3. Hard carrying Case
